- developed and owned exclusively by PCF

Backstory

2019

- NJ Department of Labor (DOL) audit of 2015-2018
- Determined Delivery Service Providers (DSPs) misclassified as Independent Contractors
- PCF responded with *Letter Agreement* and support from similar audit in 2011
- Case went dormant, likely due to Covid

2021

- Case activity resumed

Backstory

2022

March

- Updated NJ clients
- Work with New Jersey Press Association (NJPA) began
- Submitted carve-out bill to NJ State Assembly's Labor Committee, modeled on enacted NY legislation.
- Bill was killed due to opposition

August

- NJ Supreme Court affirmed DOL finding: *East Bay Drywall* case
- Decision provided DOL sole discretion in determining employee vs independent status

Backstory

2022

October

- Under the gun to litigate before Administrative Law Judge OR settle with NJ DOL

November

- Settled with the commitment for conversion to a complete employee-based delivery model
- Negotiated a sixteen-month conversion window for the nine affected distribution centers

Planning the Conversion

1. Assembled cross-functional team of leaders to plan

- ✓ Operations
- ✓ Human Resources
- ✓ Communications
- ✓ Finance
- ✓ Information Technology

2. Significant changes & development required:

- systems
- recruiting/hiring practices
- scheduling
- compensation methods
- benefits
- staffing & management tools

Planning the Conversion

3. Developed a comprehensive & measured communication strategy to keep field employees & DSPs informed
4. Committed to a test & learn, phased approach
5. Planned slow and steady conversion to minimize disruption & risk

All DSP model → hybrid → all EE model

Test & Learn Measured Approach

April 2023

- One/first distribution center targeted to:
 - ❑ Test drive the conversion plan & its components
 - ❑ Closely monitored & learned from results
 - ❑ Modified processes, tools & materials as necessary

July 2023 – July 2024

- Once stabilized, rolled out next distribution center
- As experience & confidence grew, conversions accelerated
- Final NJ delivery by a contractor was July 28, 2024

Key Learnings Applied

Early roll-outs produced learnings that were incorporated into subsequent conversions

- ✓ Full focus & relentless attention on recruitment is required
- ✓ Situations of one DSP with multiple routes must be addressed
- ✓ Covering routes with multiple delivery employees working < 7-days
- ✓ Managing & scheduling an exponentially larger workforce
- ✓ Changing mindset & behaviors from contractor to employee
- ✓ Strategy to address attendance/call out issues

High Level Roadmap

1. Delivery Network Improvement (DNI) completed in each Distribution Center prior to conversion
2. Prepared individualized analysis comparing compensation under both DSP vs EE models
3. Distributed introductory material to staff & DSPs
4. Conducted in-person town hall meetings
5. Scheduled on-site HR support to walk each DSP through Delivery Worker (DW) application & hiring process
6. Rolled out & trained DWs on the  mobile app

Impact of Conversion

- **Costs rose 32-35%; are now 100% fixed**
 - ✓ Delivery compensation
 - ✓ Benefits: Medical & 401k
 - ✓ General business insurance
 - ✓ Recruiting costs
 - ✓ Coverage costs

- **Additions to Staff**
 - Human Resources (3)
 - Recruiting (3)
 - Operations/IT (4)

- **Routes went from 1,344 to 636**

Fewer multiple route situations

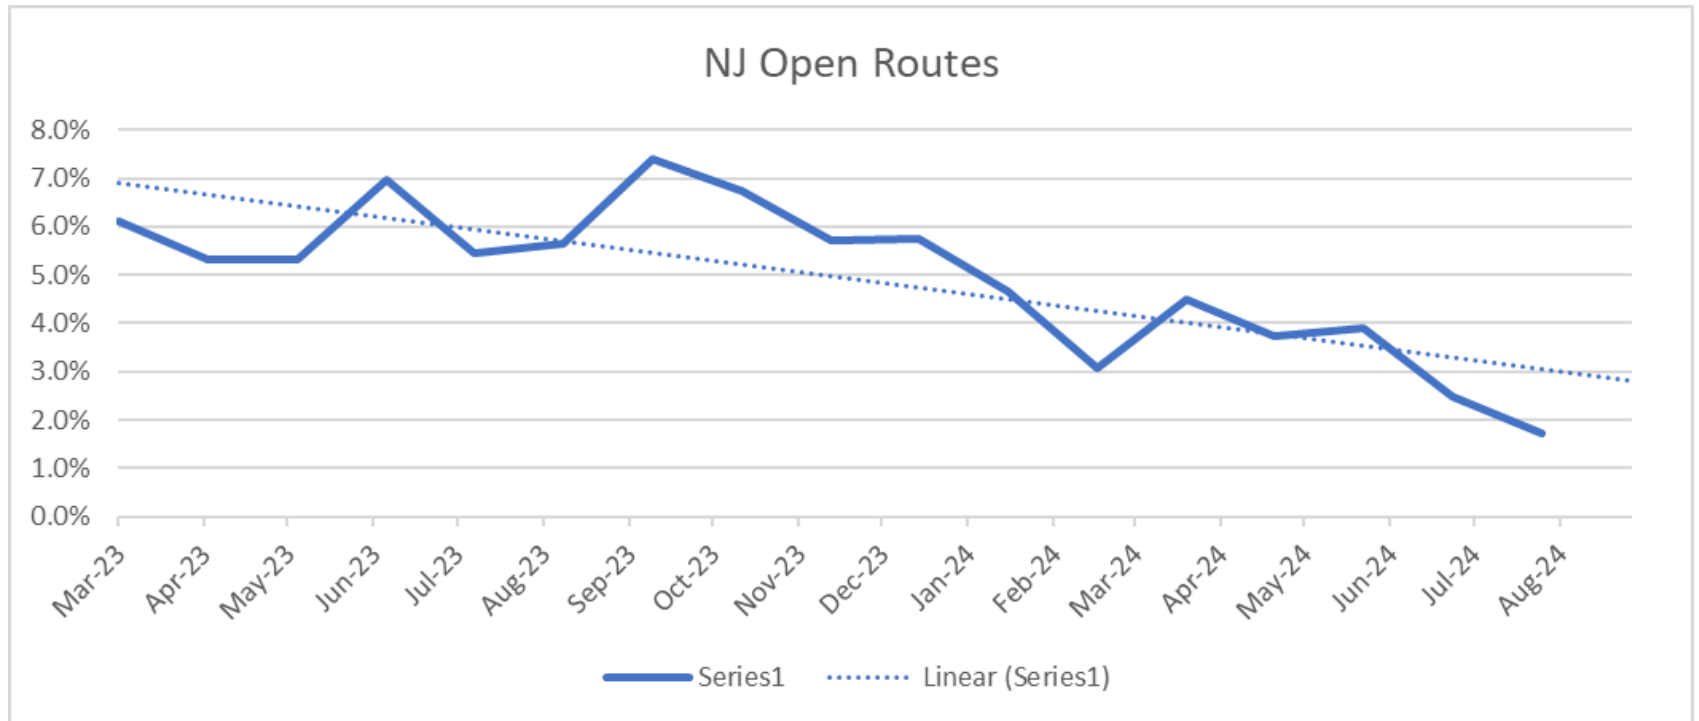

- **Open Route % from 6%+ to ≈2%**

Matters to Solve Post Conversion

- Adjusting fixed route compensation for erosion
- Handling PTO requests & call outs
- Addressing service & attendance issues consistently
- Maintaining a sufficient applicant pipeline
- Continuous on-boarding & training
- Compliance with proper use of **DART** mobile application
DELIVER SMARTER
- Ensuring minimum wage & overtime compliance
- Coaching managers to lead in new environment
